

ENZYME ODOUR NEUTRALISER

Enzyme Odour Neutraliser is a unique enzyme-based odour neutraliser, which uses application-specific bacteria to ensure malodours are eradicated at source. Traditional odour neutralisers typically use strong perfumes to mask bad smells or simply kill bacteria without rectifying the problem. Our product introduces enzymes which break down the organic material and eliminate the problem at source, leaving behind a wild berry fragrance.

Features:

- Provides high-performance levels of odour neutralisation.
- Highly effective formula begins working instantly.
- Active formula continues working post application.
- Bio-degradable and low toxicity mean low environmental impact.
- Advanced formula means high product performance.
- Long shelf life.

Applications:

Enzyme Odour Neutraliser is highly effective at removing odours. This includes:

- Cigarette smoke.
- Washrooms.
- Carpets and fabrics.
- Vehicle interiors.
- Refuse collection areas.
- Crime scenes.

Directions:

1. For heavily soiled areas, clear surface of debris then spray the product liberally over the affected area.
2. Agitate the area with a stiff brush and allow to air dry. Odours should noticeably dissipate within an hour.

ORDER CODE:

HHC18 2x5ltr
HHC19 6x750ml refill bottles
HHC19/S 1x750ml refill bottle

PRODUCT INFORMATION:

Appearance: Opaque to clear liquid
